

Cooling, conditioning, purifying.

QUALITY POLICY

We enthusiastically engage and focus our collaborators' /colleagues' / partners' attention towards a continuous improvement culture for: customer satisfaction, innovation and product reliability, relationship between people, production technologies, organization, safety and environmental care.

VISION

Our aim/vision is to be a company that builds its own future on the strength of competence, on the will to ceaselessly pursue innovation. Therefore we want to be the most attractive company for those who seek the best results.

MISSION

Organizing and growing the Company through the enthusiasm that characterized our D.N.A.

This means giving value to the whole Group, to real People acting in the daily teamwork.

MTA's Mission is to understand, design and promote products that can rationally and reliably satisfy customer's requirements, pursuing full compliance with the legislative framework, regulations and directives in force.

In order to achieve the real satisfaction of customers, MTA SpA invests resources in continuous improvement, systematic research for technological solutions and their reliability, enhancing professionalism, in the pursuit of organization excellence.

Our mission will be successful when every customer will continue to buy/appreciate MTA products over the years, identifying the company as a Group of People capable to satisfy their expectations.

COMPANY VALUE

Our leading Value is the research for reliability and innovation, pursued with competence, social and environmental responsibility.

By means of /thanks to our work we aim to increase the value difference for our stakeholders: customers, partners, suppliers, community and shareholders. We intend to be enthusiastically the protagonists of this growth through sustainability, transparency and giving value to the People and to the Group.

We dedicate our resources to every customer caring about him as we would like to be cared / every customer who will be cared as we would like to be cared.

M.T.A. S.p.A.
